# RAMAC™ TMST1

# ADVANCED PERIMETER SENSOR

## RAMAC™ TMST1
## **Advanced** Perimeter Sensor

*Secure Your Boundaries.*

The RAMAC™ TMST1 is a robust perimeter sensor built to detect intrusion on walls, palisades, welded mesh, and game fencing.

Seamless integration with existing infrastructure to deliver real-time alerts for climbing, cutting, or forced entry. Quick to install and configure via the RAMAC™ App ensures fast deployment and flexible use.

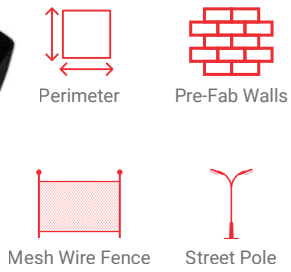
Engineered for South African conditions, the RAMAC™ TMST1 provides intelligent, reliable perimeter protection for remote assets and sensitive facilities.

## RAMAC™ **Portal** Integration

Our designs are focused on low power developments that create intelligent IoT solutions with seamless integration with the RAMAC™ Portal and third party software to provide you with a complete world class technological solution.

## RAMAC™ **TMST1** Features

- Compact & Discreet
- Real-time Intrusion Alerts
- System Monitoring
- Device Health Check
- Replaceable Battery
- Battery and Tamper Alerts



## RAMAC™ **TMST1** Data Sheet

### Specifications

- Sigfox Certified
- ICASA Approved
- Rugged Enclosure*
- Dimensions*: 62x71x142mm
- Operating Temp.: -20°C to 70°C

### Connectivity

- Sigfox RCZ 1

### Configurable Modes

- High / Low Frequency Alert
- Communication Interval
- Heartbeat Interval Configuration

### Battery

- Up To 4 Years Battery Life*
- Online Battery Indicator
- Daily Heartbeat

### Cloud Services

- RAMAC™ Platform is MS Azure Hosted
- 3rd Party Integration Available
- Client Portal Customisation (lite white-labelling)

* Actual IP Rating and dimensions depend on the enclosure used. ** Battery life expectancy under normal device operating conditions and configuration. Non-rechargeable battery.
